DETAILED ACTION

This Office Action is in response to the applicant's Appeal Brief filed 5/2/2005.

1. Applicant's arguments, see Appeal Brief, filed 5/2/2005, with respect to Claims 1-33 have been fully considered and are persuasive. The rejection of Claims 1-33 has been withdrawn.

Allowable Subject Matter

2. Claims 1-33 are allowed.

The following is an examiner's statement of reasons for allowance: The reference art of McNamara, Kim, Pouya, and Udawata teach a built in self-test controller comprising a pattern generator seeded with a primitive polynomial, a MISR for storing test results utilizing a second primitive polynomial. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention or the method steps of the application. Specifically, as per independent Claims 1, 8, 12, 22 and 29, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into these claims, namely: the first and second polynomials are composed of a different number of bits. Consequently, Claims 1, 8, 12, 22 and 29 are allowed over the prior arts of record. Claims 2-7, 9-11, 13-21, 23-28 and 30-33 are directly or indirectly dependent upon Claims 1, 8, 12, 22 and 29, and therefore are also allowable over the prior arts of record. Therefore claims, 1-33 are allowed.
